Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

**NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS**

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR PROCESSING NOTES FOR #21600
National Longitudinal Study of Adolescent to Adult Health (Add Health), 1994-2008
[Public Use]

DS22: Wave IV: In-Home Questionnaire, Public Use Sample

1. **Value Label Discrepancy:** For variables **H4TO27** and **H4TO28**, value '5' is labeled "Not asked on pretest" in the dataset. In the P.I. Codebook/Questionnaire, this label is applied to value '95'.
2. **Character Variable Codes:** Value codes were not provided for character variables **H4LM8** and **H4LM18**. Users may wish to refer to the *1998 Standard Occupational Classification (SOC) codes*, provided on pages 315 to 347 of the Wave III In-Home P.I. Codebook/Questionnaire (dataset 8).
3. **Stata Limitations:** Due to Stata limitations, character variables **BREAK_Q**, **H4LM18**, **H4LM8**, and **VERSION4** do not contain value labels within the Stata files.
4. **Missing Value Designations:** Due to limitations in the statistical packages, values '9999995', '9999996', '9999997', and '9999998' have not been designated as missing for character variable **H4LM18**.
5. **Truncated Value Labels:** Due to limitations in the statistical packages, several variables feature truncated value labels. Please see the P.I. Codebook/Questionnaire for full value labels.

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

I'd like to record the initials of all persons living in your household. Not counting yourself, please list the initials of all persons living in your household. Based on the answer to Q.4, create a table with Q.4 rows for questions Q.5 to Q.9. Ask Q.5 to Q.9 for all persons listed. {The initials of household members comprise table 1 and they are listed from top to bottom.} {Since this information is not to be saved, it has not been given a variable name.} {Questions 5-9 comprise table 2. The responses are listed from left to right in the table.} Ask Q.5 to Q.9 for each household member. Is {INITIALS} male or female?
